

Now What?

Reflecting on our stay-at-home/shelter-in-place experiences to help us move forward
(for every age or all ages)

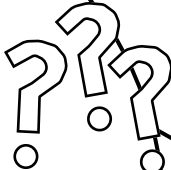

What was the best part of social distancing/
shelter-in-place? What was the worst part?

What did/do you like best about "virtual" church? What
did/do you like least?

How did someone help you during
this time? How were you a helper?

What did you learn
about yourself during this time?
What did you learn about other
people? What did you learn about the
church?

Where did you see God during
this time?

Are there any things that you've learned or experienced during
this time that you'd like to carry forward with you?
