Wanting better imagery for "spiritual warfare"—which is too much a "fighting" image, Warren employs spatial imagery—from void chaos to order in creation, from boundaries in the temple to set access to holiness, from a tiny spark of light surrounded by darkness to filling the dark square with light. Her Chapter 1 surveys the "spiritual warfare" literature (a most helpful read), and then moves toward metaphor and spatial description of the light of Jesus Christ in exorcism, counseling, and worship as ways of fencing off evil. ## Historical

Amorth, Gabriele, *An Exorcist Tells His Story*. Trans. Nicoletta V. MacKenzie. San Francisco: Ignatius Press, 1999. Looks at topic theologically, considering Christ's triumphs (and Satan's?) among the saints historically. Introduces the rite and manner of exorcism from Roman Catholic perspective, and ends with directive to Catholic Church.

Augustine. "The Divination of Demons." Trans. by Ruth Wentworth Brown. In *St. Augustine: Treatises on Marriage and Other Subjects*, ed. by Roy J. Deferrari, pp. 417-440. New York: Fathers of the Church, Inc., 1955. Essay is a rebuttal of rational arguments that demons cannot know and predict future events. The essay seems to have been occasioned by widespread reports that demons foretold the destruction of the temple of Serapis to one of the idol-worshippers. Augustine contends that demons can foretell those acts they intend to perform. He defends the superiority of prophecy (foretelling the future, including downfall of demons) given by God.

Aulen, Gustaf. *Christus Victor: An Historical Study of the Three Main Types of the Idea of the Atonement* New York: Macmillan, 1961. Holds that the classic view, that of the early church, was Christ's victory over Satan and evil.

Athanasius. *The Incarnation of the Word of God: Being the Treatise of St Athanasius: De Incarnatine Verbi Dei*. Trans. by a Religious of C.S.M.V. S.Th.; Intro. C. S. Lewis. New York: The Macmillan Co., 1947. Refers to Christ's victory over the demons as key point in his apologetic, pp. 60-70.

Brown, Peter. "Sorcery, Demons and the Rise of Christianity: From Late Antiquity into the Middle Ages." In *Religion and Society in the Age of Saint Augustine*. New York: Harper and Row, 1972. Pp. 118-146. Careful analysis of sources; holds that power over demons was a significant element in the authority of the early church leaders and in the growth of the Christian community.

Douglas, Mary, ed. *Witchcraft, Confessions and Accusations*. London *et al.*: Tavistock Pub., 1970. Eighteen essays representing worldwide settings; analyzes power factors sociologically; some essays relate rise of sorcery to misfortune. See also her earlier work, *Purity and Danger* (1966) which is a major study of taboo.

Valantasis, Richard. "Daemons and the Perfecting of the Monk's Body: Monastic Anthropology, Daemonology, and Asceticism." *Semeia* 58 (1992): 45-79. Contends that monks in the early centuries regarded daemons as seeking to entrap or preclude their successful struggle against the passions of the flesh, thus undermining their ability to live dispassionately, and thus know higher living and perfection of the body. Physical suffering too was seen as a testing to the perfecting and transformation of the body, in its journey toward the angelic celestial sphere.
